TEXAS DENTURE CENTER

Spring's Best Kept Secret for the Replacement of Missing Teeth

**FULL SCOPE OF
CUTTING-EDGE
OPTIONS PROVIDED
IN A COMFORTABLE,
CARING
ENVIRONMENT**

BY ANNA CHARLES

The word dentures can bring an old-fashioned image to mind and Texas Denture Center is out to change this. They provide a variety of state-of-the-art solutions for missing teeth—from dental implants and implant-retained dentures to complete dentures, bridges and partials. Solutions are customized to meet your individual needs and budget, with all services, including oral surgery, conveniently provided under one roof. Thanks to Texas Denture Center, you can find the options and level of personalized care you've been looking for.

And there's more good news! You no longer need to suffer with pain due to ill-fitting dentures, experience problems chewing or feel less than positive about your smile. The friendly and experienced team at Texas Denture Center is here to help you reclaim your quality of life and self confidence.

INDIVIDUALIZED SOLUTIONS, PATIENT-CENTERED CARE

Stephen D. Glass, DDS, FAGD, is best known for his full-service cosmetic and general dentistry practice—Advanced Dentistry of Spring. What most people don't know is that he and his associate, a board-certified oral and maxillofacial surgeon, provide cutting-edge solutions for missing teeth. Instead of offering a "one size fits all" service where every patient essentially gets the same thing, Dr. Glass offers an array of options and educates you in easy to understand terms so you can make an informed decision.

"There's a good deal of marketing hype about missing teeth replacement. We help patients cut through this and understand what their viable options are," Dr. Glass explained. "We also believe in saving teeth

whenever possible. Through a new FDA-approved procedure using a laser for gum disease, many times teeth can be saved. Sometimes a combination of dentures on one arch and saving teeth on another is a great solution for patients."

PATIENTS LOVE TEXAS DENTURE CENTER

After Mark moved to the Houston area, he was referred to a dentist by friends and neighbors, but was unhappy with his experience. He did some research, liked what he read about Texas Denture Center, and scheduled an appointment.

"I'm very happy that I found Texas Denture Center! Dr. Glass thoroughly explained all of my options. He's very professional, up front, and honest, and didn't try to sell me on anything. I felt confident with him so I decided to choose the 'home run' solution—a full set of implant-retained dentures."

"I'm so glad they took the time and effort to do it right the first time. They explained what I should expect every step of the way and I was impressed that they offered all the services I needed in one office. When you have dentures, how they fit is everything.

Mine are great. Last week I ate a New York strip steak—something I never thought I'd eat again, and my wife says I have my smile back."

MARY'S DAUGHTER REFERRED HER TO DR. GLASS AND SHE COULDN'T BE HAPPIER.

"If you could see pictures of me with my old dentures and a picture of me now with my new dentures from Dr. Glass, you wouldn't believe it's the same person! Now my dentures look great and feel fantastic," Mary said. "I was treated so well at Texas Denture Center. The entire staff is so sweet—they are outgoing and make you feel welcome. My experience with Dr. Glass was great too. He explained everything so well, step-by-step. He also showed me how my old dentures created an under bite and didn't fit well. He fixed this. My new smile is just wonderful!"

Whether you are missing a single tooth, a few teeth, an entire arch or more, schedule an appointment at Texas Denture Center today. The only thing you will regret is not having done it sooner! 📞
